Ludovico Einaudi - The Einaudi Collection Piano Sheet Music by Ludovico Einaudi. \$32,000 to support CTA construction projects. Is the Board going to ask us to, like David told us to, prioritize projects over operating subsidies, and, you know, if not, can we drop the ridiculous requirement that the Board reimburse us for projects that we don't need for operating subsidies? We don't need to ask for that from the board, the board knows that we don't need that because we have enough funding to do what we do. We're trying to get away from the idea that we can only do one big thing at a time, and that is not in the interest of the people that we serve and that we are elected to serve. We're going to do what we can with the money that we have in our operating fund. These type of demands, it's a lot of money, and we don't think that our voters want us, you know, we don't think we have a right to ask for this from them. Our operating budget is down about 10 percent from what it was, and we don't have any significant capital projects, so we are requesting that the money be given to an organization that we know is really needed to continue to improve the system. It's not a greater or lesser amount of money, it's basically based on the amount that the organization has to spend on the system in comparison to how much they spent the last three years. Our operating budget is a conservative estimate in that the operating budget is the amount that would have to be spent on the system, and it comes out of the operating subsidy fund, so it basically funds, you know, all of the things that we do that are a form of service, and it's not based on what we want to do in the future. So if we think that the system can be improved, we would like to request that they improve the system. It's based on how much we've spent in the past three years, and we already know that they're having some problems. We know that they're, they've used the fund to pay off obligations that they've made to employees, that they need to make 3e33713323
