What's new:

Fantasy Strike is a solo RPG. Therefore, Multiplayer comes in the form of a common chat with a shared map and world where you can rely on other players. There is no shared world.

Fantasy Strike, the high-paced turn-based action game developed by the creators of the hit series Fire Emblem Heroes, has just begun the official Open Beta test of its latest season!

In this new Fire Emblem campaign, players can enter an epic fantasy saga set on the world of Silva, a parallel world that shares the same world map as the Kingdom of Penance. Determined to do their part in the war between King Hime and the invaders, these new stars will fight alongside heroes from the original game and meet new allies in a thrilling retelling of the Fire Emblem Heroes story.

A Flash Battle System with unique actions aside from the original strategy battle system makes the combat action smoother and more fun. The battle system takes the good things from Heroes and Fusion Heroes and realizes a fresh action gameplay experience with interactions that are both deep and simple.

In this new game, players can quickly preview the course of action sequences by sliding their fingers across the touchscreen, or else they can choose a direct action command.

This application is not a game for all ages. It is intended for players who are above the age of 13. Please keep this in mind when taking part in the "Beta Program" and playing the game. You are allowed to download the game for testing purposes only, but if you continue to play the game, your data will be managed according to the beta manager's policy. If you do not wish to participate, please close the application and delete the application data. Thank you.
