For this FIFA World Cup PES 2018 E3 2018 showcase, we have 3 different games, all focusing on the rising countries and teams of the world cup, China, North Korea, and Saudi Arabia. This year we'll showcase how PES will handle these 3 countries. The official poster and gameplay on-screen was done by Mr. Chinatsu Amazawa, who's worked on titles such as Tekken 2, Guilty Gear Xrd, BlazBlue and Soul Calibur, and is about to finish work on the final round of 2018, Dragon Quest XI. China: The Rising Country Preview Event China-hosted this year, and the country has already been deemed to be the frontrunners in this World Cup. For this showcase, the teams of China, Saudi Arabia, and North Korea are each represented in 3 different parts of the showcase. The first game on-screen is of PES, which is probably the most complex game to try and get through for someone who isn't used to the game. The second game focuses on the rising players of the world and is represented by PES, while the final game uses North Korea players and focuses on a potential new dynasty, or rather rises to the world stage. North Korea Preview Event This showcase of PES focuses on North Korea, who has risen to the world stage and would be the team of the Asian World Cup. With the host of the World Cup of course being a rising country, this showcase features 3 new players to bring in their own flavor, and of course includes the rise of the Jokgu "Iron Man". Portugal Preview Event The showcase sports the Portugal national team, as well as 3 specifically designed players for them. Portugal is expected to win the upcoming WC, and with their rise in popularity and the game changing their gameplay, it's expected that PES will do a great job of capturing what makes Portugal so unique, and to show us how PES will change with the team. Saudi Arabia Preview Event The showcase focuses on the players of Saudi Arabia, who could be considered a little more low-key to the picture of the host country. PES features this team for a couple of different reasons. They've been around for a little while but hasn't had much recognition from the

FIFA 99 featured still more enhancements, including improved match engine and a more forgiving approach to diving, at the expense of player license fees. 2000 FIFA 2000 introduced a completely overhauled match engine, new playing styles, new animations, improved play-by-play commentary, and several other enhancements. 2001 FIFA 2001 featured similar enhancements and additions, plus a redesigned user interface and the option to play in a 5 vs 5 mode. 2002 FIFA 2002 featured improved physics engine, new camera angles, and more realistic gameplay. 2003 FIFA 2003 featured completely redesigned graphics, improved animations and new commentary. 2004 FIFA 2004 featured revamped graphics, a new AI, improved lighting, improved player animation, and a new 'coach-
