Created by: The One Trusted Adventure Synopsis A desolate city, an abandoned mansion and a few farmlands. A den of monsters and ruthless murderers stalk the lands. Only a few survivors, whom you never really get to know, exist in the city. You would assume that the moment you step into the city, you would meet your certain death, but you wouldn't be as wrong as you would have thought. When you venture out of your safe shelter, you will find yourself in a terrible situation, being hunted down by ruthless murderers that will do anything to claim your remaining life force. With a limited amount of time to save your life, you will have to go through the city, explore the abandoned farms, the city's dungeons and the flooded graves, for the one thing that would keep you alive: The source of light, which can only be found in a town two hours further away. You will have to survive the night and the next day's journey, by using all of your cunning. The city keeps lurking dark secrets, which it will not accept you. What's waiting for you: Classic Survival Horror gameplay Multiple Enemies Adventures Crafting Items Gathering Resources Puzzle Tasks Collecting items About This Game: Created by: The One Trusted Adventure Synopsis The place is overrun with monsters and savage killers. You need to find the light, as there is no hope in the end. Your only chance to survive the night is to complete the journey through the stages and solving puzzles, that will guide you through the darkness About The Game: Mindjolt Games is an indie game development studio from Barcelona, Spain. The team has been working for the last few years on their 2D survival horror adventure game, Losted, with the collaboration of artists and programmers based in the United States, Germany and Spain. Losted is a first-person horror game set in a desolate castle. You must survive, just like the other survivors in the city. If you want to make sure that a game idea gets into the game-world and becomes a true experience for you or your audience, it's time to think about it in a more professional way. And when you start telling yourself that there's no need for a concept demo or

**trainer allows you to lead teams of up to 24 players and manage them as they compete in a single-player exhibition mode, form a league, compete in promotions and relegations, and promote youth development. You'll be able to see scouts and trainers from two of Europe's best soccer clubs, as well as International teams. Modern Football Manager 2020 was released in November 2018 and supports Windows, Mac and Linux platforms. We are looking for players who have played a professional soccer manager game in the past and are willing to take on managerial responsibility in this game! Commissions Collect player pools from all over Europe and once your team has qualified you may conduct pre and post transfer deals with scouts from big and old clubs. The deals need to be agreed to and the transaction needs to be processed and confirmed for bonuses to be paid. I'm looking for someone to take over my current team that I need to take over as well as starting up a team on a brand new Continent where I can start developing my personal profile whilst on a respectable start. Added 3 years ago, 2074 Ratings 5,3 (2074) make my team competitive again 45 I'm looking for someone to make my side more competitive. Ideally 1 goalkeeper, 3 defenders, 1 or 2 midfielders and one front-striker, I want to know their playing stats and I want them to have a good skill set. Added 3 years ago, 1900 Ratings 5,3 (1900) Making Fifa dlc Love this Fifa dlc and want to help make or expand its features to help evolve it further. I've got several ideas I'd like help with and some of these seem perfect for Fifa dlc as they'll get the job done better and bigger with more features due to the ambitious that I'm no longer able to be and the feedback that I'm only now getting. The idea behind this is that I have a 14 year old son who is a huge Fifa fan, he likes playing online (mainly Fifa Ultimate Team though) and recently started playing on Fifa dlc and likes to manage his teams and then see if he can go one step further and compete against other children around the world**

**Q: LetsEncrypt automatically redirects to https but not to www I'm trying to setup HTTPS on my webserver with letsencrypt. My configuration is as follows: Host: RewriteEngine On RewriteCond %{HTTP\_HOST}!^www\. [NC] RewriteRule ^ [L,R=301] When I try to login in my webserver I'm automatically redirected to and not to It's working fine with (i.e. but not with and (replaced with of course). Any idea why this is happening? A: and are different domains. This means that you'll have two separate certificates and this is why you get redirected to the other website. The letsencrypt certificate only covers the website example.com. And because the domain example.com is not a subdomain of www.example.com, you don't get redirected to the other site for If you want both domains to use the same certificate, you should register both of them and have separate certificates.**

**Q: Detecting Out of Range pixels values in MonoTouch application I'm writing an application that will be distributed to millions of users, so I'd like to avoid being inundated with bugs related to presenting and hiding controls or panes of a view.
