# Official Samsung Galaxy A51 SM-A515F DSN Stock Rom

[Download](#)

The dimensions of Galaxy A51 ranges between 146.4 x 69.2 x 7.5 and 148.9 x 70.2 x 8.1 mm and weights are 120 grams. Having a super AMOLED screen with full HD+ resolution of 1080×2400 pixels. The aspect ratio is 19:9. The pixel density of this device is 332 ppi. When Microsoft bought Nokia's phone division in the year 2016 and then they rebranded the range of phone as "Surface" with its Windows interface. But, they have never bothered to optimize the UI of the mobile phones to Microsoft's own criteria. Now, Samsung has their own Android UI and branding in the market. Now, we have four major brands of Android in the Android smartphone market: Google, LG, Samsung, and Huawei. These brands are present in the market because of their own customer base or value for money. You don't have to worry about any Android versions except the latest Android version. Each brand is more focused on one thing and that thing is only one thing. For example: Huawei is more on performance, Samsung is more on design, etc.Also, the Android version of each smartphone doesn't come with Android 10, but Android 9.0 Pie which is its usual version. Now, Samsung is rolling out Android 12 to a number of their devices. And, since Android 9 doesn't really come with additional features and its just a minor upgrade from Android 8.1, why not upgrade to Android 10 from Android 9? That's what we are going to discuss in this post. We are going to discuss a method of updating your Samsung Galaxy A51 SM-A515F DSN Stock Rom to Android 10.Odin Mobile Tool The Samsung Galaxy A51 is a device which runs on Android 7.0 Nougat. So, Odin is the most appropriate option to flash the firmware to Android 10. Odin is a third-party USB file manager which supports flashing multiple files at a time.The way to update your phone is straight-forward. If you have a computer running on Windows, try to find the Odin on your computer. You can download Odin from
